

Filling out all pertinent information about the conditions of use ensure optimum of saw blade selection.

Machine manufacturer: _____

Model: _____

Type of machine:

one shaft

two shafts

Type of application:

against feed:

from top

from bottom

with feed:

from top

from bottom

Shaft RPM

_____ 1/min

Feed rate:

_____ m/min

Cutting height:

_____ mm

Material to be cut:

wet

dry

with knots

Tool dimension:

diameter : _____ mm

bore : _____ mm

cutting width : _____ mm

stbl. strength : _____ mm

dbl keyway/pinh: _____

of rakers : _____

Flange diameter: _____

Required quality of cut: _____
